18 DAY UGANDA BIRDING AND NATURE TRIP REPORT

Dates: July 31 to August 17, 2021

Trip Report and all photos by Crammy Wanyama

Half of the participants on this tour had done a Ugandan tour two years back. On the previous trip, we focused on the westerly circuit. Therefore, this time being an avid and well-travelled birding team, our primary focus was on the east and northeast to find specialties of the Somali-Masai biome but with interest in the west catch up with a few toughies that eluded us on the previous tour. The group was happy to look at every bird loved focusing on life-birds and subspecies that were potential splits; therefore, our focus was not on numbers, although we managed to encounter 560 bird species and 58 mammals.
Day 1 – July 31, 2021: Birding Mabira Forest
Having arrived a day earlier, Stephen and I drove straight up to Mabira Forest, a central forest reserve between two significant cities, Kampala and Jinja. We stayed at a very serenely located lodge in the forest. Yet, the most pressure that threatens the habitat comes from the surrounding communities that use the forest as a primary source of firewood for domestic consumption and illegal cutting of trees for timber to earn an extra income to take care of their families. We started with the search for the Forest Robin, just by the parking lot on arrival.

African Dwarf Kingfisher

This is a gorgeous nearly-orange breast with very lovely headlights. Around the same place, we had a couple of adults and a freshly fledged Yellow-lobed and the Red-tailed Bristlebill. Inside this lovely forest, we also saw Black-headed Paradise Flycatcher, Buff-throated Apalis, Grey and Yellow Longbills, African Pygmy and the locally uncommon White-bellied Kingfishers, Purple-throated Cuckoo-shrike, Cassin’s Hawk-eagle, Black-billed Turaco, Blue-breasted Kingfisher, Olive Green Camaroptera, White-throated,
Little, Gray, Slender-billed and Toro Olive Greenbuls, Least Honeyguide, the aerial Sabines and Cassin's Spinetails, Rufous Flycatcher-Thrush, Chestnut Wattle-eye, White-headed Saw-wing among other lovely birds.

Day 2 – August 1, 2021: Birding Mabira and Transfer to Entebbe to Catch up with the rest of the team
During an early coffee and tea from my cabin’s balcony while luring in a Pale-breasted and Brown Illadopsis, a single individual that gave us a tough time to observe hanged around for a couple of minutes, and that is typical of rain forest undergrowth and liana dwelling species. We had a fantastic quick look at a gorgeous Blue-breasted Kingfisher that flew straight up to us. Our brief walk saw Hairy-breasted and Yellow-spotted Barbets, Chestnut Wattle-eye, Yellow-throated and Speckled Tinkerbirds. We also observed a very nice Congo Pied Hornbill,
Purple-bended Sunbird and heard the fascinating Blue-shouldered Robin-Chat among other birds.

Purple-bended Sunbird

Olive-green Camaroptera

Main Itinerary
Day 3 – August 2, 2021: Birding Mabamba and Transfer to Mabira Forest
We drove to Mabamba, arriving there in good timing and fine weather that lasted until our fantastic hunting Shoebill sighting. Thanks to our strategy of finding the Shoebill first at all cost. The Western Intermediate, Great and Little represented the Egrets, Blue-breasted and Olive Bee-eater, and a single African Marsh Harrier. Other birds in the marsh included Carruther’s and Winding Cisticola, Mosque and Barn Swallow, African Swamphen, African Jacana, Gull-billed Tern, Grey-hooded Gull, a single Malagasy Pond, Purple and Goliath Herons.
After the marsh, we embarked on our journey to Mabira forest. We stopped by Papyrus habitat and got a beautiful pair of Papyrus Gonolek and the secretive White-winged Swamp Warbler. We also
Shoebill stopped at Mpanga Forest for our packed lunch. We recorded Blue-throated Brown, Olive, Scarlet-chested, Red-chested and Green Sunbirds, the forest-dwelling Weyn’s,

Day 4 – August 3, 2021: Birding Mabira Forest and Transfer to Soroti
While our breakfast got set, we stood by the restaurant and woke up the beautifully green-coloured Black-billed Turaco. We watched it make its rounds through the giant branches and loved the beautiful red flash of its wings while it switched trees. We walked around the Mabira Rain Forest trails. We found very nicely viewable birds like the Fire-crested Alethe, Red-headed Bluebill, Olive Green Camaroptera, Yellow-spotted Barbet, the small-sized Buff-spotted Woodpecker, Speckled and Yellow-rumped Tinkerbirds, Cassin’s and Least Honeyguides, White-breasted Nigrita, among other lovely birds.
We later transferred to Soroti, where we would base for our next two nights pursuing the Fox’s Weaver and Karamoja Apalis.
We also added a *Slender mongoose* to our list of mammals that had *Red-tailed Monkey, Uganda Mangabey, Giant-pouched Rat, White-bellied Tree Pangolin, Bohm’s Bush* and *Giant Forest Squirrels* from Mabira Forest.

**Day 5 – August 4, 2021: Birding Pakwi**
We wandered off to the remote wilderness of Pakwi and spent our whole first half of the day in its Savannahs, reeds and Whistling thorns.

**Avian Safaris:** Email: info@aviansafaris.com Website: http://www.aviansafaris.com
The recent rains had partially flooded a beautiful habitat. Such a change offers great opportunities for seasonal birds. In that case, we found a very lovely Dwarf Bittern, Grey-backed Fiscal, Yellow-throated Longclaw, Black and Senegal Coucal, Rufous-bellied Heron, Grey-crowned Crane, Saddle-billed and Yellow-billed Stork, African Openbill among others on our way to and from. At the prime breeding colony of the Foxy’s Weaver, we were able to find about eight breeding pairs. They were this few because we had the distraction of other incredible birds like the restricted-range Karamoja Apalis. Regular birds included Black-rumped and Common Waxbills, Red-cheeked Cordon-bleu, Red-pate Croaking, Red-faced and Winding Cisticolas, the always fascinating Silverbird, Shelley’s Rufous and Chestnut Sparrows. Other weaver family members in the company included Little, Golden-backed, Black-headed, Chestnut, Spectacled, Thick-billed and Village. Southern Red and Black Bishops, Red-billed and Cardinal Quelea.

Black Crake

Day 6 – August 5, 2021: Transfer to Kidepo Valley National Park
Our birding tour continued to the different north-eastern parts of Uganda. We decided to access Kidepo Valley National Park via the very birdie Moroto district route. There are as many birds for as long as you can watch on this drive. The Scenery along this route is so dramatic, especially around Kaabong and Kapedo.

The stretch through the Bokora-Matheniko Wildlife Reserve presented the newest birds for the tour. We were able to see very well a Grey Wren Warbler, Red and Yellow and D’Arnoud’s Barbet, Red-fronted tinkerbird, Yellow-necked, Clapperton’s and Crested Francolins. Our Parasitic Whydah’s list saw breeding plumaged Pintailed, hundreds of Eastern Paradise and Straw-tailed. Rufous Charterers, Brown-backed Scrub-Robin, Vinaceous Dove, and a very nice Slate-coloured Boubou were all very pleasant sightings. Our birds of prey list added Vultures, Falcons and Accipiters, including White-backed and the giant Lappet-faced Vultures, Grey Kestrel, Red-necked, Pygmy, and three individuals of Laner Falcon, Shikra, Lizard Buzzard and Dark-chanting Goshawk.

**Eastern Paradise Whydah**
A few minutes before arriving at our lodge, we had a very beautiful White-crested Turaco, breeding plumaged Pennant-winged Nightjars and the Grayish Eagle-Owl.

**Day 7 – August 6, 2021: Birding to Kidepo Valley**

Today, we wisely chose to bird the remote Kidepo valley while the day was nicely dry. This further-northern semi-arid park tends to offer its own unique experiencing spiced up by species and magnificent scenery.

The species that we saw today included the miniature Foxy, Wing-snapping, Zitting and Boran Cisticolas. Northern Crombec, Flappet, Rufous-napped and Red-winged Larks, tens of Harlequin Quails, Tawny and Martial Eagle, Yellow-bellied Eremommela, Red-fronted Barbet, Grey-capped Social and Speckle-fronted Weavers, Chin-Spot Batis, Sulphur-breasted and Grey-headed Bush-shrike. We were also delighted to see a pair of Secretary Birds,
Common Ostrich, and worked a little hard for the Brown-tailed Apalis in the drier north.
Day 8 – August 7, 2021: Birding Narus Valley
We birded the very moist Narus Valley and covered its Buffalo and Kakine tracks. The Savannahs flourished very well, the green went as far as our eyes could see, and the animal populations seemed very healthy with very finely good looking animals. The birds were in plenty, and we picked them out as they presented. Our first major stop was the river crossing where we worked on and got the Highland Rush Warbler (Race Sudanensis) and at the same spot added Siffling Cisticola, a Pair of very Black Crakes and Black-crowned Night Heron. On the tracks and the nice rocks of Kidepo Valley National Park, we saw Stone Partridges, Black-backed Cisticola, Ruppell’s and Lappet-faced Vultures, Eurasian Kestrel, White-winged and Moustached Grass Warbler and the Yellow-spotted Bush Sparrow.
We returned to our lodge for a lunch break and went for a search for the Ring-necked Francolin, Black-breasted Barbet and White-headed Barbet. This last drive only added White-headed Barbet and Yellow-mantled Widowbird to our list.

Secretary Bird
Superb Starling (above)  Red-pate Cisticola (below)

Avian Safaris: Email: info@aviansafaris.com  Website: http://www.aviansafaris.com
Day 9 – August 8, 2021: Transfer to Murchison Falls National Park
When we entered Murchison Falls NP, our first few bird yet on the list of the want lists was the **Heuglin’s Francolin, Red-throated Bee-eater** and a lovely group of the **Red-winged Grey Warbler**. Heading there, we drove through the Lorokul community searching for the Ring-necked Francolin and Black-breasted Barbet on our way to Murchison, although we did not succeed with these two. However, here and along the rest of the drive, we saw a brief view of the Red-winged Pytilia, Black-billed Barbet, a pair of Fox Kestrel and Baglafecht Weaver race *emini*.

Day 10 – August 9, 2021: Boat Ride and Afternoon Wildlife Drive
We went for an exclusive boat ride upstream to find a couple of the team’s targets: the **Dusky Babbler** and the **Highland Rush Warbler race elgonensis**. This is one of those places where the chances for the Shoebill are at the highest; however, we decided not to prioritise it; we scanned the dead and still dying riverine forest all the way. The death of the rich vegetation here is a result of the rising water levels of the Nile. The country has been experiencing rains enough to raise water levels that have submerged several muddy pads, small islands some of
Heuglin’s Masked Weaver

the luxuriant northern and southern revering forest. The trees here are the kind that loves the banks but not being in the waters. Other beautiful birds we saw included, Banded Snake-eagle, Saddle-billed and Yellow-billed Stork, Black-billed Barbet, Greater Honeyguide and a very nice Greater Swamp Warbler.

Red-throated Bee-eater
Day 11 – August 10, 2021: Birding to Kaniyo Pabidi
This morning, we wanted to find the Brown-rumped Bunting to better our previous day's view. We also wanted to find the Ring-necked Francolin plus the Red-winged Pytilia that everyone had not seen on our day from Kidepo Valley National Park. Therefore, we drove towards the park’s southern gate back and forth and successfully found the Brown-rumped Bunting, Brown Twinspot, Cabanis’s Bunting, Western Crested Guineafowl and the White-shouldered Black-Tit, but the two eluded us.

![Brown-rumped Bunting](image)

We paid a visit to the top of the mighty Murchison Falls. We observed the rising water levels and, of course, the unbelievable force expected from the world's most powerful waterfall and watched the Western Osprey arriving.

Day 12 – August 11, 2021: Birding Kaniyo Pabidi to Masindi
Kaniyo Pabidi being part of the Budongo Forest, is one of the few spots with outstanding quality west African birds. Therefore we had our breakfast early in preparation to find some of those unique species, and while at breakfast, we paid attention to a calling Fire-crested
Alethe and Red-tailed Anti-Thrush. We studied a mixed flock along an extensive clearing resulting from the complete road construction at immediate setoff, which comprised of a very nice Grey-headed Nigrita, Narina Trogon, Red-capped Robin-chat, Olive-bellied Sunbird and the uncommon Orange-tufted Sunbird. Slender-billed, Little, Gray, Toro Olive, Plain and White-throated Greenbuls also joined the flock along with Western Black-headed Oriole and Blue-throated Brown Sunbird. Down the trails, we tracked a calling Puvel’s Illadopsis, which we found and enjoyed compass views and also had significant observations of the Nahan’s Francolin, the primary targets of the morning. On the other side of the forest, we found a family of four Nahan’s Francolin. We also saw Yellow-billed Barbet, Brown Illadopsis, Yellow-throated and Speckled Tinkerbirds others.

Puvel’s Illadopsis

After a lovely birding morning, we had a warm lunch and transferred to Masindi town for check-in before visiting a cultivation site to find a
Day 13 – August 12, 2021: Birding The Royal Mile
Our early start got us to the Royal Mile after a few stops along the way in the search for the Marsh Tchagra, which we managed to see very well but on our third attempt. The Royal Mile, our prominent spot for today, is by far one of Uganda’s top birding spots, one of those locations in east Africa where the Ituri forest of DR Congo species are well represented. At the start of the mile, we found the range-restricted Rufous-crowned Eremomela. It joined the mixed flock that also hard Purple Headed Starling, Grey Tit Flycatcher which is not an all-time forest bird, Grey-throated Tit Flycatcher, Chestnut, Capped Flycatcher plus the tiny Lemon-bellied Crombec. Also, along the way, we added the Red-collared Widowbird without a red collar on our list.
We walked on and worked on the even stricter birds like Ituri Batis, Chocolate-backed Kingfisher, African Dwarf Kingfisher and the Uganda Woodland Warbler and Dusky Long-tailed Cuckoo that did not show up for observation.
Day 14 – August 13, 2021: Transfer to Fort Portal

We exited Masindi and took on the newly paved highway to Fort Portal. It is a lot easier to drive now. We did very minimal stops to try
the Speckle-breasted Woodpecker, which did not comply. Later at the forest bit of Kibale National Park, split by the main highway to Kampala from Fort Portal, we were able to see **Stuhlman’s, Waller’s and Chestnut-winged Starlings**. The open clearings and forest edges revealed a female **Pink-footed Puffback, Masked Apalis, Brown-capped Weaver, Honey-guide Greenbul, Yellow-whiskered Greenbuls, Grey-green** and the beautiful **Lhuder’s Bush-shrikes**. We also had fantastic looks at the **Grey-throated Barbet, Green-headed** and **Northern Double-collared Sunbird**, among other lovely birds, before heading to Fort Portal to find **Highland Rush Warbler** race *centralis*.

![White-thighed Hornbill](image)

**White-thighed Hornbill**

**Day 15 – August 14, 2021: Birding Semuliki National Park**

Today, we had an early start and headed to Semuliki to explore the beauties of the bio-diverse lowland forest of the Congo-guinea forest biome that occur this furthest east of their range. We started with the search for the **Red-billed Dwarf Hornbill** and the **Leaflove;** the latter, we saw very well not too far from the shy and localised *De Brazza Monkey*. Deeper in the forest, we covered a couple of excellent
and muddy trails, the muddy ones resulting from the rains that had started here. The undergrowth presented the Chatterley Cabanis', Icterine, Xavier's Greenbuls, Forest Robin and Scaly-breasted Illadopsis. While, in the canopies and mid-strata, we were able to see Chestnut-breasted Nigrita, the miniature African Piculet, Buff-spotted and Brown-eared Woodpeckers and the least common sighting of a pair of Jameson's Antpecker. At the Ox-bow lakes and elsewhere, we saw Yellow-footed Flycatcher, Black-bellied Seedcracker, Grant's Bluebill, Crested Malimbe, to mention but a few.

Central African Red Colobus

Day 16 – August 15, 2021: Birding Semuliki and Transfer to Kibale Environ
We headed back to lower elevated Semuliki and wandered around in search of the birds that were habiting this just over 700 metres above sea level forest. The first slight stretch looked for the White-naped Pigeon, which we briefly saw an unsatisfying look at the Congo Serpent Eagle. Our next bit saw a couple of birds seen the previous
Day 17 – August 16, 2021: Transfer to Lake Mburo National Park
Before our breakfast and the drive to Lake Mburo NP, we decided to first walk along the road in Kibale Forest to look for more forest birds. We checked out two open spots since we knew that forest dwellers love feeding around clearings in flocks and the Pigeons love vantage points around such areas. We saw several Black-necked Weavers, a Thick-billed Honeyguide, and a lovely view of the Slender-billed Greenbul at the first stop. At the second spot, we right away paid attention to the presence of Green Sunbird and a Pair of Hairy-breasted Barbet before settling in so well for scope views of a very lovely Dusky Tit, the beautiful forest-dwelling Black Bee-eaters, Sooty Flycatcher, a flyby African Olive (Rameron) Pigeon and a well perched Afep Pigeon, Velvet-mantled Drongo, Yellow-billed...
Barbet and a pair of Red-headed Malimbe. Yet, we also had a little party of Starlings that included Slender-billed, Narrow-tailed, Chestnut-winged and the shorter-tailed Stuhlmann’s. We returned to the lodge and had breakfast before setting off to Lake Mburo National Park. After our five-hour drive, we started with a spot where we hoped to find the restricted-range Red-faced and Crested Barbets but only found them later somewhere out and inside the park. While looking around the dung-filled grassy patches, we were able to find a few young Brown-chested Lapwings before ending another lovely day with a Tabora Cisticola and evening lookout for the Freckled, Black-shouldered and Square-tailed Nightjars.

Day 18 – August 17, 2021: Boat ride and transfer to Entebbe
We took a boat ride on Lake Mburo, searching for the African Finfoot, of which we saw both a male and female after a long search. We hoped to find the Papyrus Yellow Warbler, but in vain. However, we saw a very nice Goliath and Striated Herons. The shorelines also presented the brightly white-rumped Green, Common and Wood
Piapiac imm

Sandpipers, our first and only Giant Kingfisher of the trip, Water Thick-knee and the chunky Holub's Golden Weaver and Grey-capped Warbler after the boat ride. We later proceed to Entebbe to mark the end of our tour with the remarkable observation of the Little Swifts at the Equator stop.

TRIP BIRD LIST

**STRUTHIONIFORMES: Struthionidae**
Common Ostrich \textit{Struthio camelus}

**ANSERIFORMES: Anatidae**
White-faced Whistling Duck \textit{Dendrocygna viduata}
Spur-winged Goose \textit{Plectropterus gambensis}
Knob-billed Duck \textit{Sarkidiornis melanotos}
Egyptian Goose \textit{Alopochen aegyptiacca}
Hartlaub's Duck \textit{Pteronetta hartlaubii}
Yellow-billed Duck *Anas undulata*

**GALLIFORMES: Numididae**
- Helmeted Guineafowl *Numida meleagris*
- Crested Guineafowl *Guttera pucherani*

**GALLIFORMES: Odontophoridae**
- Stone Partridge *Ptilopachus petrosus*
- Nahan's Partridge *Ptilopachus nahani*

**GALLIFORMES: Phasianidae**
- Crested Francolin *Dendroperdix sephaena*
- Heuglin's Spurfowl *Pternistis icterorhynchus*
- Clapperton's Spurfowl *Pternistis clappertoni*
- Yellow-necked Spurfowl *Pternistis leucoscepus*
- Red-necked Spurfowl *Pternistis afer*
- Common Quail *Coturnix coturnix*
- Harlequin Quail *Coturnix delegorguei*

**CAPRIMULGIFORMES: Caprimulgidae**
- Black-shouldered Nightjar *Caprimulgus nigriscapularis*
- Freckled Nightjar *Caprimulgus tristigma*
- Square-tailed Nightjar *Caprimulgus fossilii*
- Pennant-winged Nightjar *Caprimulgus vexillarius*

**APODIFORMES: Apodidae**
- Scarce Swift *Schoutedenapus myoptilus*
- Sabine's Spinetail *Rhaphidura sabini*
- Cassin's Spinetail *Neafrapus cassini*
- African Palm Swift *Cypsiurus parvus*
- Alpine Swift *Tachymarptis melba*
- Mottled Swift *Tachymarptis aequatorialis*
- Common Swift *Apus apus*
- Nyanza Swift *Apus niansae*
African Black Swift  
Little Swift  
Horus Swift  
White-rumped Swift  

Apus barbatus  
Apus affinis  
Apus horus  
Apus caffer

**MUSOPHAGIFORMES: Musophagidae**

Great Blue Turaco  
Bare-faced Go-away-bird  
White-bellied Go-away-bird  
Eastern Plantain-eater  
Ross's Turaco  
White-crested Turaco  
Black-billed Turaco  

Corythaëola cristata  
Crinifer personatus  
Crinifer leucogaster  
Crinifer zonurus  
Tauraco rossae  
Tauraco leucolophus  
Tauraco schuettii

**OTIDIFORMES: Otididae**

Black-bellied Bustard  

Lissotis melanogaster

**CUCULIFORMES: Cuculidae**

Black-throated Coucal  
Senegal Coucal  
Blue-headed Coucal  
White-browed Coucal  
Black Coucal  
Blue Malkoha  
Levaillant's Cuckoo  
Jacobin Cuckoo  
Diederik Cuckoo  
Klaas’s Cuckoo  
Yellow-throated Cuckoo  
African Emerald Cuckoo  
Dusky Long-tailed Cuckoo  
Black Cuckoo  
Red-chested Cuckoo  
African Cuckoo  

Centropus leucogaster  
Centropus senegalensis  
Centropus monachus  
Centropus superciliosus  
Centropus grillii  
Ceuthmochares aereus  
Clamator levaillantii  
Clamator jacobinus  
Chrysococcyx caprius  
Chrysococcyx klaas  
Chrysococcyx flavigularis  
Chrysococcyx cupreus  
Cercococcyx mechowi  
Cuculus clamosus  
Cuculus solitarius  
Cuculus gularis

Avian Safaris: Email: info@aviansafaris.com Website: http://www.aviansafaris.com
**COLUMBIFORMES: Columbidae**

Rock Dove
Specckled Pigeon
Afep Pigeon
African Olive Pigeon
Western Bronze-naped Pigeon
Mourning Collared Dove
Red-eyed Dove
Ring-necked Dove
Vinaceous Dove
Laughing Dove
Emerald-spotted Wood Dove
Black-billed Wood Dove
Blue-spotted Wood Dove
Tambourine Dove
Namaqua Dove
Bruce's Green Pigeon
African Green Pigeon

**Columba livia**

**Columba guinea**

**Columba unicincta**

**Columba arquatrix**

**Columba iriditorques**

**Streptopelia decipiens**

**Streptopelia semitorquata**

**Streptopelia capicola**

**Streptopelia vinacea**

**Spilopelia senegalensis**

**Turtur chalcospilos**

**Turtur abyssinicicus**

**Turtur afer**

**Turtur tympanistria**

**Oena capensis**

**Treron waalia**

**Treron calvus**

**GRUIFORMES: Heliornithidae**

African Finfoot

**Podica senegalensis**

**GRUIFORMES: Sarothruridae**

White-spotted Flufftail

**Sarothrura pulchra**

**GRUIFORMES: Rallidae**

African Rail
African Crake
African Swamphen
Black Crake

**Rallus caerulescens**

**Crecopsis egregia**

**Porphyrio madagascariensis**

**Zapornia flavirostra**

**GRUIFORMES: Gruidae**

Grey Crowned Crane

**Balearica regulorum**
CHARADRIIFORMES: Burhinidae

Senegal Thick-knee          Burhinus senegalensis
Water Thick-knee            Burhinus vermiculatus

CHARADRIIFORMES: Charadriidae

Long-toed Lapwing           Vanellus crassirostris
Spur-winged Lapwing         Vanellus spinosus
Black-headed Lapwing        Vanellus tectus
African Wattled Lapwing     Vanellus senegallus
Brown-chested Lapwing       Vanellus superciliosus

CHARADRIIFORMES: Jacanidae

African Jacana              Actophilornis africanus

CHARADRIIFORMES: Scolopacidae

Common Sandpiper            Actitis hypoleucos
Green Sandpiper              Tringa ochropus
Wood Sandpiper               Tringa glareola

CHARADRIIFORMES: Laridae

African Skimmer             Rynchops flavirostris
Grey-headed Gull            Chroicocephalus cirrocephalus
Gull-billed Tern            Gelochelidon nilotica
Whiskered Tern              Chlidonias hybrida
White-winged Tern           Chlidonias leucopterus

CICONIIFORMES: Ciconiidae

Yellow-billed Stork         Myceria ibis
African Openbill            Anastomus lamelligerus
Woolly-necked Stork         Ciconia episcopus
Saddle-billed Stork         Ephippiorhynchus senegalensis
Marabou Stork               Leptoptilos crumenifer
SULIFORMES: Anhingidae
African Darter

SULIFORMES: Phalacrocoracidae
Reed Cormorant
White-breasted Cormorant

PELECANIFORMES: Threskiornithidae
African Sacred Ibis
Hadada Ibis
African Spoonbill

PELECANIFORMES: Ardeidae
Black-crowned Night Heron
Striped Heron
Squacco Heron
Malagasy Pond Heron
Rufous-bellied Heron
Western Cattle Egret
Grey Heron
Black-headed Heron
Goliath Heron
Purple Heron
Great Egret
Intermediate Egret
Little Egret

PELECANIFORMES: Scopidae
Hamerkop

PELECANIFORMES: Balaenicipitidae
Shoebill

PELECANIFORMES: Pelecanidae
Pink-backed Pelican  

**ACCIPITRIFORMES: Sagittariidae**

Secretarybird  

**ACCIPITRIFORMES: Pandionidae**

Western Osprey  

**ACCIPITRIFORMES: Accipitridae**

Black-winged Kite  
African Harrier-Hawk  
Palm-nut Vulture  
Egyptian Vulture  
Hooded Vulture  
White-backed Vulture  
Rüppell’s Vulture  
Lappet-faced Vulture  
Black-chested Snake Eagle  
Brown Snake Eagle  
Western Banded Snake Eagle  
Congo Serpent Eagle  
Bateleur  
Bat Hawk  
Martial Eagle  
Long-crested Eagle  
Wahlberg’s Eagle  
Ayres’s Hawk-Eagle
